THE CHIEF EXECUTIVE PROGRAM

This six-month program brings together an international cohort of 50 CEOs who want to more effectively lead change in their organizations, communities and in the cultural field. You will share your experiences with others in the cohort and learn from faculty in convenings at Harvard Business School and the 1440 Multiversity. By the end of the experience, you will have the tools and connections needed to boost your ability to create change in your own unique context.

The program is built around learning cycles that will help you explore, reflect, apply and share new approaches to leadership. You and your colleagues will come together at two in-person events and will participate in “at-home” activities between these sessions, designed to help you move forward on the key objectives you have defined. These events and activities are designed to give you a deeper understanding of the strategic challenges you face and the ability to translate your vision for the future into reality.
